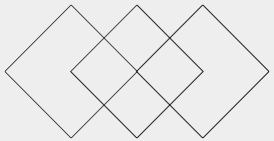
WHAT WE BUILT

Newsic is a music social media app linked with itunes music to help discovering new music seamlessly. Users can create posts to share their new music finds, search for other users to discover their new music finds and add songs to a personal playlist to have a never ending stream of new music.



NEWSIC FEATURES

Create Posts

Search Users

Feed Page

Use as Guest or User

Add Songs to Playlist

PRODUCT GENERATION

initial documents → Figma creation

02

DESIGNING + BUILDING

6 OUT-OF-CLASS TOPICS

- Itunes API
- Google API
- Figma
- Github
- Bootstrap
- jQuery

10 SOFTWARE TOOLS

FRONTEND

- CSS
- HTML
- JavaScript
- JSTL
- JSP

BACKEND

- Java
- MySQL
- HTTP Handling (servlets)
- Networking (JDBC)
- Multithreading
